

honor thy view

Interiors inspired by beautiful views

Well Being by Design is an authorized dealer for the finest brand names of American and Italian furnishings. We represent these names at or below American retail prices, and St Maarten's unique duty free status enables us to bring in furnishings easily. We also offer complimentary decoration assistance for these brands, as well as complete interior design services. Our shipping network includes forwarding to all Caribbean islands.

We're here to simplify the process of home furnishing, through online and onsite services. We'll ensure your Caribbean residence is comfortable, welcoming and beautiful... we can also help furnish a rental property tastefully and intelligently. If you're getting ready to build, we offer design ideas and implementation to accomplish splendid harmony in your environment.

Well Being by Design specializes in a wide range of services beyond those of an ordinary furniture store. Not only do we represent every style from ultra modern to tropical, we blend styles tastefully, such as ultra modern with oriental and ultra modern with antiques. We can also customize furniture, rugs and every conceivable type of window treatments, from vision roller shades to valances. Hundreds of fabrics and finishes are available to further personalize your décor. We infuse art and technique in the design of lighting, floors, Venetian wall plaster, wallpaper, as well as bathrooms and kitchens. Tile work is our passion, as seen in our mosaics and patterned tile motifs. We work in association with Sir Roland and Laura Richardson to bring you the most beautiful paintings in the Caribbean and the world. Here, everything comes together beautifully.
