

Endla from Aqua Marina in St. Maarten

Catherine was tremendously helpful when we purchased our place in St. Martin. You can only imagine the logistics of furnishing a home remotely from the States. Catherine made our experience flawless and the place looks absolutely beautiful.

We are so excited that all the furniture is ordered and cannot wait for its arrival to bring our villa to life. Working with you to select furnishings for our villa has been a fun experience. You turned it around from a challenge to find appropriate furnishings in St. Maarten/St. Martin to a rewarding experience through our meetings. You are a consummate professional, knowledgeable and focused on our needs. We will recommend you to anyone who has a desire for discriminate taste. We truly wish you the best, as that is what you provide for your clients.

Warmest regards,
Barb and Wayne Waterman

From Laura and Jim

My husband and I recently had to purchase furniture to fill an entire villa in the Caribbean. We saw an ad for Well Being by Design and contacted Catherine Brown. I was pleased with her professionalism and vast choices in furniture, and her help in putting things together to furnish our new villa. Well Being by Design is one stop shopping from design to delivery.

Catherine was referred to me by another friend. We used her services to furnish a home in the islands. She was very knowledgeable and efficient. She listened to what we were looking for and directed us in the right direction. The furniture was delivered and set up on time. Catherine made it easy and seamless. I would recommend her to anyone.

Donna, St. Barths

I contacted this company to change all my window treatments, bedspreads and covers. The entire job was done according to the specifications, and on budget. Excellent company.

Jeff, St. Maarten

Letter from Jerry

I spent time with Catherine on my recent visit and was delighted to work with her. She is very easy to talk to. Her many American brands coupled with her ability to decorate and relate to our style of furnishing made the task easy. We work online exchanging emails filled with pictures of furniture. We made decisions this way. She took care of every detail; all I had to do was come home to my beautiful residence.
